Notes from my person

Misty is part of our family. She was adopted after being abandoned by her first family and under no circumstances would we consider moving without her. Misty is obedience trained and housetrained. She's strictly indoors except when walked on a leash and we always clean up after her. She does not chew destructively or bark excessively. She's an older girl who prefers to spend her time quietly lounging on the sofa.

We leash walk Misty at least three times a day and employ the services of a dog walker if we're not home. She stays with relatives when we go on vacation. Fleas are not a problem because she's primarily indoors, but as a precautionary measure, we treat her monthly with a flea/tick preventative.

Please see attached letters of recommendation from Misty's veterinarian, her groomer, and from the Program Director at Willow Glen Nursing Home, where Misty brings joy to the residents. I've also attached references from past and current landlords, as well as from our current neighbors.

We'd welcome the opportunity for you to meet Misty and see her friendly, outgoing, and loving personality.
